

SGP-110 / LLSN-10

Variable Displacement Axial Piston Pump

MODEL CODE

SGP	-110	- *	-LLSN	-10
PISTON PUMP	Displacement	MODEL TYPE B : Basic T : Thru Shaft	Controller Type	Design number

FEATURES & APPLICATIONS

Optimized power-to-weight ratio for mobile vehicle

High self-suction speed

Thru-shaft for operating additional hydraulic pumps

Intended applications

Cranes and lifting equipment

Truck-mounted concrete pumps

Machines for forestry and agricultural purposes

Cleaning vehicle

Wheeled armored vehicle

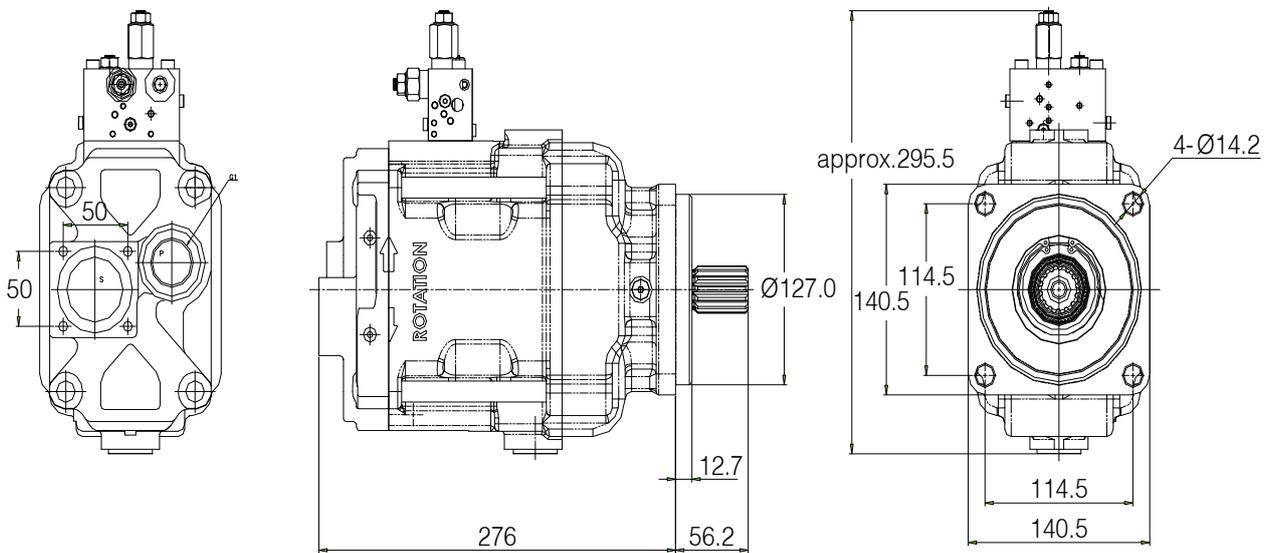

Power take-off(PTO) of the commercial vehicle

SPECIFICATIONS

Max. pressure	Geometric displacement	Max. rotation speed	Min. rotation speed	Overall efficiency	Max. drive torque	Weight
350 bar	110 cc/rev	2200 rpm	500 rpm	85% or more	640 Nm	34 kg(Thru Shaft)

DIMENSIONS

BASIC

THRU SHAFT TYPE
